The Role

Overview

This role sits within our Corporate Wellbeing Service team, where you will mainly work alongside our Head of Corporate Wellbeing Services and Corporate Fundraiser, to generate income for the charity through community engagement and events. You will be responsible for meeting the annual community and events income target which is typically in the region of £50,000-100,000, with each event we run bringing in up to £10,000. The role will require someone with strong organisational skills, and prior experience as a Fundraiser in another organisation.

What You'll Do

In this role, you will split your time between developing, planning, and running events, supporting people to raise money on behalf of York Mind, and creating new relationships in the community, such as with schools and sports clubs. We have an annual calendar of both internal and external events, including our annual Mental Elf run, as well as challenges such as the York 10k and Yorkshire Marathon. Your role will be to fill events, and effectively steward and support people to raise as much money as possible through their participation.

As part of your role in event coordination, you will be responsible for our fundraising volunteer base, including recruitment and effective utilisation of volunteers at our various events. Flexibility will be key, as some events happen on evenings and weekends.

Another important part of this role will be engaging and developing relationships with community supporters. You should have strong interpersonal skills and enjoy getting out and about in the community (eg. sports clubs/community organisations) to grow our supporter base and look after those who we currently work with.

Finally, the Corporate Wellbeing Services Team work collaboratively and therefore you should be able to work effectively as part of a team and be willing to support others in their roles to ensure the effective running of the whole department. For example, you may be involved in running campaigns and referring individuals to our training courses. This will require someone who is adaptable and supportive.
